BON AMI CELEBRATES NEW VAN

Members of the Town of Gravelbourg Council and staff attended a ribbon cutting ceremony on October 10 to celebrate the new wheelchair accessible van purchased by Gravelbourg Bon Ami Inc. While the Transette will still be utilized by the organization for daily transport and group activities, this new vehicle will reduce the strain on employee vehicles and provide more flexibility for the clients and their individual needs.

Message to the Community

Gravelbourg, like many communities across the nation, is facing a growing housing shortage. This challenge has begun to impact not only our residents but also our local economy. Our three largest employers have all expressed difficulties in recruiting and retaining staff due to the limited availability of housing. This issue affects our entire community, as it influences our ability to attract new families, workers, and investment.

Your Town Council has made this a top priority. We have retained Associated Engineering to assist the Town in identifying suitable grants and funding opportunities to support housing development. Their work will also help us plan for continued growth, including the development of residential lands to the south and the potential transformation of the historic convent into much-needed housing units.

We are committed to working collaboratively with both the provincial and federal governments and the private sector to find solutions that will meet Gravelbourg's current and future needs.

Our goal is clear: to create the right conditions for growth, to welcome new residents, to offer families, workers, and retirees an exceptional place to call home. Together, we can ensure Gravelbourg remains a vibrant, thriving community where opportunity and quality of life go hand in hand.
