2. Gravelbourg Museum - 300 Main Street

Devoted to the history of Gravelbourg and the stories of its people, the museum contains a collection of early pioneer memorabilia, including an extensive array of artifacts from Gravelbourg's earliest residents. The museum is home to the Footprint in Time, a lava rock measuring 14" long by 9" wide. Within the rock is an imprint of a foot measuring 10" long from heel to toe and 4" wide across the widest portion of the ball of the foot. It is flat and shows no sign of any "arch". Archeologists are not able to agree on its origin and it remains part of the science of the unexplained.
