MAYOR'S MONTHLY REPORT

JANUARY

2018 is well on its way and there has been a lot of activity at the Town Office. The first being monthly reports that will be coming from the Mayor's desk. It is important to keep our community moving forward and for the Town Council to work together towards a common goal. With that being said, I would like to start by praising our town employees, who are all working hard and doing their best for the residents of this great community.

Craig Faulker and his public works crew have worked tirelessly and in extreme weather conditions to repair water line breaks, at all hours of the day and night, to ensure residents have access to water and sewer. We appreciate their efforts and encourage you all to let them know they are doing a fantastic job.

The administration staff, along with the economic development and the community recreation office, have also put in many hours and continue to do a great job keeping the day-to-day operations of the town running smoothly.

The administration office ensures public services are delivered with excellence and efficiency; the Economic Development Office is focused on business retention and expansion; while the Community Recreation Office maintains our facilities and provides our community with various recreational programming and activities. All these departments contribute to the quality of life we all enjoy in Gravelbourg.

At the end of the day, it is very easy to focus on what is not working. Instead, I challenge all of us to focus on what is working well and in doing so, you will discover that we are fortunate to have the amenities we do, with the quality of education that is second to none, all within a community that is vibrant and rich in culture and history.

Let's make 2018 the start of new beginnings and positive change.

Robert Bowler, Mayor
